Flow control system alternative design 1 (ACO)

ACO spin flat roof drainage outlet lower section + Optigreen Flow Control System ASF

Optigreen Flow Control System ASF

Nominal width	Optigreen Item No.*
DN 70	10502
DN 100	10503
DN 125	10504

Flow control pipe to be inserted into ACO spin flat roof drainage outlet lower sections listed below

ACO spin flat roof gully bottom section

Nominal width	ACO Item No.*
DN 70	0174.47.15
DN 100	0174.47.16
DN 125	0174.47.17

ACO spin flat roof gully bottom section

Nominal width	ACO Item No.*
DN 70	0174.48.03
DN 100	0174.48.04
DN 125	0174.48.11

Flow control system alternative design 2 (LORO)

LORO retention roof drainage outlets

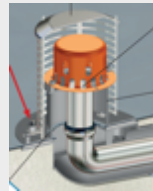

LX 182

Nominal width	LORO Item No.*
DN 100	41511.100X

Complete retention roof drainage outlet, consisting of roof drainage outlet and flow control pipe

LX 1842

Nominal width	LORO Item No.*
DN 100	01485.100X

Complete retention roof drainage outlet, consisting of roof drainage outlet and flow control pipe

Flow control system alternative design 3 (SITA)

Optigreen Flow Control System SMR + Sitalndra, SitaStandard or SitaMulti

Optigreen Flow Control System SMR

Nominal width	Optigreen Item No.*
DN 70	15072

Flow control pipe and base plate for use in the roof drainage outlets shown below (Sitalndra, SitaStandard or SitaMulti)

SitaStandard roof drainage outlet

Nominal width	SITA Item No.*
DN 70	1002xx
DN 100	1004xx
DN 125	1006xx
DN 150	1008xx
DN 200	1010xx

*xx Item No. Last digit, for cuffs made from bitumen: 00. For cuffs made from PVC soft 10

SitaMulti and Sitalndra roof drainage outlet

SitaMulti

Nominal width	SITA Item No.*
DN 80	400399
DN 100	400499
DN 125	400699
DN 150	400899

Sitalndra

SITA Item No.*
1073xx
